John Bradley: Named "Worst Prosecutor of the Year" in 2011

John Bradley's professional misconduct has repeatedly put our safety at risk. His propensity to reduce and dismiss serious felony crimes, to fight to keep innocent people in prison and to knowingly spread false information about law enforcement officers, means he is actively working AGAINST the brave men and women who protect our families. Simply put, **if law enforcement cannot trust the District Attorney, then our community is less safe because of it.**

"It remains incomprehensible that Williamson County District Attorney John Bradley fought DNA testing on the bandana until ordered to do so by an appeals Court"

- Austin American Statesman, 3/30/12

"That should haunt him to the end of time, though it did not dissuade him from running for reelection."

- Texas Monthly, 3/26/12

"Bradley's comments...were just 'one small example of his lack of honesty and integrity.'"

- Austin American Statesman, 3/14/12

"Bradley is the wrong man for an important job..."

- Austin American Statesman, 3/2/11

Headline's used 2nd time for 2011

If our own law enforcement doesn't trust John Bradley, then why should we?

✗ Fought DNA tests that proved Michael Morton's innocence until forced to by an appeals court.

✗ Reduces or dismisses 36% of cases recommended by law enforcement, twice the statewide average. (Texas Office of Court Admin.)

✗ Falsely accused law enforcement officers of bribery in order to score political points. (Austin American Statesman, 3/14/12)

✗ Blocked creation of a program that would support our combat veterans returning from war zones.
